If you could call back to answer the questions about my story, I'd appreciate it

mlicloud@mypillow.com

Have you watched my documentary absolute proof?
03:22:12 pm

You all mocked me and wanted the proof ... have you watched it ?
03:22:36 pm

If you haven't then you can put in your story "Mike Lindell will not give me any answers
until I watch his Absolute Proof documentary"

I give you all direct access to me and you ask for proof for 3 weeks and now you don't
report it????!!

I watched it. I'm not writing about it. Not all reporters in the country are covering the
election. Can you call me back please?

You just lied to me and did not watch it!
Watch it and call me back

03:28:06 pm

My focus is 100% on the election machine fraud!
That is my answer to everyone of your questions....
I do not have time for other stories unless the reporter makes time for mine ...

Are you talking about the part with Melissa Carone? She claimed ballots were repeatedly counted. My job isn't to write articles sources tell me to write. I'm writing the article I am working on. If you want to comment on the story, please call back. If you don't, I'll write what you said in our call.

I am talking about the forensic footprints I have from the election that show machines changing millions of votes from trump to Biden!
Watch the last 1/2 hour

03:39:10 pm

My answer is I am not wasting my time on any reporters covering anything else but "machine election fraud"

Every reporter called me for 3 weeks and mocked me that I had no 100% proof and now no one calls to report it ... terrible reporters out there that suppress the news

I'm not suppressing anything. I called you about an unrelated story and you refused to talk to me about it because you only want to talk about election fraud. I'm writing that.

mlicloud@mypillow.com

I said "machine election fraud"
Don't change my words
